NOLO SCOOP activity gets participants to design, construct and test a scoop to move granular materials

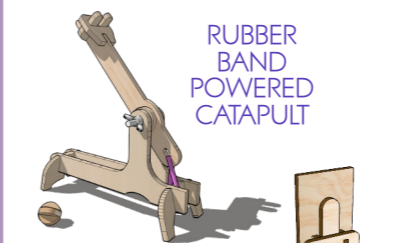

At each stage, points are awarded for efficiency of their design

Between the stages you demonstrate simple folding techniques that stiffen and create handles in the material, to help participants develop and refine their approach

NOLO AJBOX ACTIVITIES EXPLORE STEM USING NO OR LOW COST MATERIALS

AJBOX.CO.UK sells a wide range of unique low cost STEM Educational kits which pop-out and push together to make mechanical mechanisms  
No workshops or tools required!  
Each comes with extensive free Educational Resources

EDUCAM PROJECT BASE DESIGN WITH 3 CAMS
